

Brendan Mullan holds a Ph.D. and an M.A. in Demography from the University of Pennsylvania and a Bachelor of Arts Honors Degree from the Queen's University, Belfast, Northern Ireland. He retired from Michigan State University in 2024 where he held professorial and senior administrative positions over a 35-year career.

Dr. Mullan has served as founding Executive Director (Chief Academic Officer) of the MSU Dubai Campus in the United Arab Emirates (2008-2010), as Associate Dean of Academic and Student Affairs in the College of Social Science (with responsibility for all undergraduate academic and student affairs in twelve disciplinary and professional departments and schools in the social, behavioral and economic sciences), and as Acting Director of the Center for Integrative Studies in the College of Social Science (with responsibility for the core curriculum for undergraduate general education in the social sciences at MSU).

In 2006, Dr. Mullan was a fellow with the Committee on Institutional Cooperation Academic Leadership Program (CIC-ALP). Dr. Mullan is the author-editor of 3 books and over 100 scholarly and policy-related publications, presentations and reports on demography, community development, and international migration, and public policy. He has served as primary consultant to the Swedish International Development Agency on their Migration and Community Development in Southern Albania program and variously as consultant to the World Health Organization, to the Michigan Department of Community Health, and to the United Nations Economic Commission for Europe. In 2009 he was an invited participant to the inaugural World Innovation Summit on Education (WISE) in Doha, Qatar.

In 2016 he was elected as President of the North Central Sociological Association (NCSA) and gave his presidential address on "The Sociology of Inequality and the Rise of Neo-Inequality" at the combined meetings of NCSA and the Midwest Sociological Society in Chicago on March 24, 2016.

In 2022-23 he was a Fulbright Scholar in Greece (2022-2023) where, in collaboration with colleagues at the University of the Aegean and Harokopio University he developed and presented his research on the demography of the Greek islands and migration.

In 2026, with the [Deon Policy Institute](#), he founded and created of the [DEON Demographic Toolkit](#), a Demographic Intelligence Infrastructure for Greece bringing together applied demographic expertise, technology, data to deliver evidence-based demographic analysis and policy recommendations for Greece's future.
